EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 6, line 4, the "e" before "subscriber" has been deleted.

2. The following is an examiner's statement of reasons for allowance:

Referring to claims 1-7 and 8-12, none of the prior art discloses using a port of an ITM card of a source VIP gateway when calling a number, using an access code of an ITM card of a destination VIP gateway to receive the call, and adding a trunk access code matching the ITM access code to the inputted telephone number to form an augmented number.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent No. 6,069,890 to White et al discloses a method of processing a VOIP call comprising the steps of: sending a dialed telephone number to a database; determining at the database the IP address of the destination gateway

associated with the dialed telephone number; and assembling a TCP/IP packet with the dialed telephone number and the IP address of the destination gateway to transmit to the called party. Refer to Column 8, line 9 to Column 9, line 53 and Figures 4-5.
